About SEAWAY

Established from modest beginnings in 1999, SEAWAY has grown to represent and champion the interests of key customers, developing a reputation for integrity, accuracy, accountability and lateral thinking throughout our journey.

SEAWAY today operates offices throughout Australia in addition to New Zealand and China. Although we are Australian, we rightfully take our seat at the global table. And like all successful Australians we're capable, hardworking, resourceful, dependable and optimistic.

SEAWAY is emerging as one business offering freight forwarding on a global scale, multi-disciplined advisory services with proven technology and systems. We're driven by local insight yet maintain an international perspective. SEAWAY Logistics offers a full service offering of logistics solutions to organisations involved in international business.

Our portfolio of work is diverse, and our solutions are innovative. SEAWAY has a rich culture of provoking and sharing new ideas and we dedicate ourselves to exceeding client expectations in project delivery. We are committed to delivering projects that have economic, social and environmentally sustainable outcomes.

Fostering creativity within our team ensures that all staff reach their full potential and are provided with the platform to grow as individuals and gain experience in various spectrums of expertise.

Our Projects, Mining and Construction (PMC) team consist of knowledge-based individuals who take pride in applying their experience to logistics solutions in their unique areas of expertise. The knowledge gained through the PMC team's extensive project background is used and shared, helping the team collaborate to use their collective knowledge to best support SEAWAY's clients.

Repeat business coupled with continuous involvement in the execution of logistics solutions is testament to the capability of SEAWAY to value add in our approach to clients. Our successes result in our strong history of being able to work in intimate partnership with clients to implement successful outcomes at all levels of the supply chain.

This is what makes us uniquely SEAWAY.
